

## **Sixth Form Enrichment**

Students are asked to complete 100 hours enrichment over the two years they spend in the Sixth Form. Enrichment can come in many forms; it can be a hobby, sport, volunteering work and/or work experience.

Here at Guru Gobind Singh Khalsa College Sixth Form we aim to develop the whole person. Taking part in enrichment activities develops skills that prepare a student for life and the world of work. It can make a huge difference to a student's employability prospects.

Recent enrichment activities which have been run through the Sixth Form at Guru Gobind Singh Khalsa College include:

- Reading Programme with lower years
- First Aid
- CPR
- Archery
- Cooking
- NCS
- Work experience
- Primary winter show
- Badminton

### **Work Experience**

Students can carry out work experience on a weekly basis (Timetable allowing) and all Year 12 students carry out a block work experience at the end of the academic year. The work experience block is a fantastic chance to gain those all important employability skills. Students chose placements that are relevant to their chosen university course or field of work.
